

CSS Architecture – ITCSS – Lab

Problems for exercises and homework for the "[CSS Advanced](https://softuni.org/trainings/2871/css-advanced-july-2020/)" course @ SoftUni. Submit your homework in the SoftUni course instance page at <https://softuni.org/trainings/2871/css-advanced-july-2020/>.

1. About Page

Create a web page using **ITCSS architecture** like the following:

Our vision

Our vision is to be a main driver of the global digital revolution and contribute to building a new digital era.

Our mission

Our mission is to build a global organization, which provides practical, quality and accessible education in the field of digital and information technologies, creating real professionals and future leaders.

Our top instructors

The high quality of education is guaranteed by the carefully selected teaching staff. It consists of software industry practitioners who have great lecturing and mentoring skills and who apply the industry's best practices in teaching. Classes often feature prominent guest lecturers who pass on their experience and knowledge to students.

Scholarship

SoftUni (Software University) offers a range of different scholarship programmes for students to help cover tuition fees. The exact amounts of the scholarships may vary. All our top students have the opportunity to apply for a scholarship that will cover their education.

Constraints

- Use font family "**Lato**" for the primary font
- Use font family "**Montserrat**" for the headings
- Divide your stylesheets using the **ITCSS architecture**
- Take your colors with [color picker](#)
